

# Philippine Green Building Council NATIONAL CONVENTION

17-21 November 2017 | Manila, Philippines

## Message from the Executive Director

German-Philippine Chamber of Commerce and Industry

The German-Philippine Chamber of Commerce and Industry, Inc. (GPCCI) would like to congratulate the exhibitors and organizers for making the 2017 Philippine Green Building Council (PHILGBC) National Convention a success.

With the many Build! Build! Build! infrastructure projects of the administration, the Chamber sees the great potential and relevance of green building in the Philippines today. German companies have shown interest in cooperating and imparting German know-how in the industry, as shown by the trip to Germany of Department of Transportation Secretary Arthur Tugade.

We are grateful that the Philippine Green Building Council is organizing this event to serve as a platform for exchanging new ideas and innovations towards a greener future and hope that this leads to new opportunities between the Philippines and Germany.

**PETER KOPALLA**

*Executive Director*
