NEWS RELEASE

BOTANIKA NATURE RESIDENCES: REDEFINING MODERN LUXURIOUS LIVING THROUGH SUSTAINABILITY

Filinvest's Upscale Brand Filigree launched 3-Star BERDE certified Botanika Nature Residences

26 April 2018 – “Green is the new luxury!”, highlighted the Filigree’s foray of integrating sustainable and green building practices in upscale urban development. Botanika Nature Residences is one of the first buildings of the brand to get certification under the Philippine Green Building Council’s (PHILGBC) Building for Ecologically Responsive Design Excellence (BERDE). Botanika Nature Residences has been awarded a 3-Star Rating for BERDE Stage 1 – Design Certification.

“Botanika Nature Residences is just the start of our masterpieces that we are most proud of. It speaks highly of our commitment to sustainable standards and our dedication to our investors and unit owners”, declared Kate Ilagan, head of Filigree. The upscale residential development is expected to provide an authentic green living environment.

Ecotektonika, Inc. provided services to Filinvest in managing the BERDE certification process. Ecotektonika is a multidisciplinary sustainable consultancy firm focused on the development of sustainable designs and strategies for the built environment. The company is an award-winning team of architects, planners, designers, consultants and support staff. Its work is based on a philosophical foundation rooted in sustainable development. The firm’s thrust is to practice sustainable design and development that is responsive to the Philippines’ unique environment, climate, culture, people and economics. Now on its 10th year in the industry, Ecotektonika is the leading BERDE Project Management Consultant in the country. The company is consistent in promoting the BERDE Program established by the PHILGBC as an appropriate response to the Philippine building industry’s need to proactively address the negative impacts of climate change.
